## MESSAGE FROM ANNE-MARIE

Dear All-

It is hard to believe that we have now passed the half-way mark and are moving into the latter part of the year.

It has been an extraordinary year dominated by a global pandemic that is not only exposing the cracks in our society, but inviting each one of us, and all of us collectively, to make both an individual and a collective response. It is testing our mettle. We are now in the phase of realising that it may be here for a lot longer than we first envisaged.

I am happy to report that as a group we appear to be rising to the challenge, despite the weariness, frustrations and ambient anxieties that accompany such a challenge.

The Executive is working together to keep us engaged and afloat as a community. We are training new candidates, and welcoming new members. The monthly clinical meetings shared by the various peer groups have got off to a great start and despite the frustrations of Zoom, or perhaps because of them, are attracting an ever-increasing participation, as are the Continuing Professional Development meetings.

Please note that Robert Eidus from the 2012/2014 training group will be presenting for Membership on the 31<sup>st</sup> August.

This year we have also become Foundation Institutional Members of the Australasian Confederation of Psychoanalytic Psychotherapies, a major milestone in the development of psychoanalytic psychotherapy and in the life of our Institute.

It has never been more important that we hold together as a community of people united by our common goal of

furthering, understanding of, and access to, this method of healing.

To this end we are forging ahead again this year with our annual Dadirri, a parallel process of creating a healing space, gifted to us by our indigenous ancestors. Gill, Laurie, and Jo have once again generously offered to facilitate this for us. If we cannot meet in person, we'll meet on Zoom but hopefully we will have the space to gather as a group at that time at our premises.

I want to thank each and every one of you for the contributions that each of you make by your participation in the life of the Institute in committee work, teaching, supervising, working as therapists and trainee advisors and by your presence at meetings.

This year, more than ever, I have come to reflect on the key importance of sheer presence.

We all make up the community that we are and that we hope to be.

Warm regards,

*Anne-Marie*

## **Robert Eidus will present for Membership on Monday 31 August 2020**

### **Bio – Robert Eidus**

Robert Eidus is a psychiatrist in private practice in Paddington, Sydney.

He trained at St Vincent's Hospital in the late 1980s, then took a break for six years to study Design and work as a GP part-time. He returned to complete his Fellowship Training in the late 1990s and entered private practice in 1998 as a general psychiatrist. Gravitating towards psychotherapy, Robert sought analytic supervision, then embarked on a personal psychoanalysis. The analytic journey led eventually to the pursuit of a formal training in Psychoanalytic Psychotherapy in 2014. In retrospect, in 2020, at the age of 60, Robert wonders what took him so long! Robert has interests in architecture and design, film and theatre, travel and languages.

## **GORDON CONSULTING ROOM**

We are a busy practice seeking another clinician to join our friendly multi-cultural group. We would welcome someone who shares our interest in contemporary relational psychodynamic approaches to practice.

We have a variety of core professions (psychiatry, psychology, social work) and psychotherapy trainings. Our long experience of teaching and training in psychodynamic programs allow us to provide a rich and facilitating environment for clinicians who want to deepen their professional skills with engaged colleagues.

We are keen to broaden our clinical care services for adolescents and youths (16 - 25yo), and children and families, as well as adults.

The comfortably furnished rooms are spacious light and soundproof and we believe art makes a difference. The building has secure access, clinician parking, air con, internet, Hicaps, kitchen, and a shared waiting room in a Covid safe suite.
