Post Graduate Training in Psychoanalytic Psychotherapy

*Applications Open **Now** for New Intake in 2025.*

The NSW Institute of Psychoanalytic Psychotherapy is offering a Training in Adult Psychoanalytic Psychotherapy, commencing in 2025.

Applicants should have a background in psychiatry, social work, psychology, or other relevant disciplines and have had at least two years clinical experience working with patients.

This Training has been designed to develop the knowledge, skills, and attitudes of trainees, in order for them to have the capacity to work as psychoanalytic psychotherapists. The seminar component of the training extends over four years commencing with Infant Observation and orientation to the course, followed by theoretical and clinical seminars. On successful completion of the Infant Observation, trainees may begin their supervised clinical case-work.

As part of the program, Trainees are required to undertake concurrent personal psychoanalytic psychotherapy or psychoanalysis with an approved therapist and will have individual supervision of their clinical work by senior members of NSW Institute of Psychoanalytic Psychotherapy. It is important that trainees are established in therapy with an approved therapist before the commencement of training.

More information about the NSWIPP Training can be found on our Website:

www.nswipp.org

This includes a downloadable Prospectus and an example of the Curriculum.

Applications close **December 2024**; consideration will be given to later applications.

**For an application form and Training Prospectus, please contact the Administration Officer,
Lyndall Rees, NSW Institute of Psychoanalytic Psychotherapy.**
